Overview

Everything in one look

Meldmind is one place for the AIs you already use. It picks the best one for each task and learns from you. The rows below are the parts in this app. Each later page is one of them, with plain steps and how to start.

Free	Pro	Extreme
$0	$18.99 a month	$29.99 a month

Version 0.4.22 | October 27, 2026 | Only pages that are in this app.

01	**One hub for all your AIs** One hub holds all your AIs, picks the best one for each task, and learns from you.	Free
02	**Finish and MindMedia** Press Finish under any result. Copy it, print it, save it as a PDF or Word file, or keep it in MindMedia, the one list of everything you make.	Free
03	**Text size and reading** Make the text bigger, turn on high contrast, or have an answer read aloud.	Free
04	**Missions and councils** A council asks several AIs at once, and a mission breaks a bigger job into steps that get checked.	Pro
05	**Remix any app or game** Remix rebuilds an app or a game you show it from a screenshot and a game starter, with your own name and look, and you publish only when you click.	Pro
06	**Guided builders** A guided builder walks you through a website, marketing, reels, HighLevel, accounting, booking, meeting notes, contracts, and a chat assistant when you want to make one.	Free
07	**Research and Refocus** Research finds answers and shows its sources, and Refocus helps you finish work you already started.	Pro
08	**Connect your apps** You can connect Zapier and Make, MCP, and webhooks, and nothing goes out until you say so.	Free
09	**You stay in control** Nothing is sent, posted, or bought until you click OK, and your phone can approve it.	Free
10	**Teams, People, and hosted runs** Teams and People are where you share work, and Extreme can keep a run going while this PC is off.	Extreme
11	**What's new after an update** After each update, a short What's new note shows what changed.	Free

Each page after this one is one area: the steps, the plan, and how to start.

01

One hub for all your AIs

Free

One hub holds all your AIs, picks the best one for each task, and learns from you.

In this app: your AIs.

Steps

1. Open the chat box.
2. Say what you want in plain words.
3. Meldmind picks the best AI for that task.
4. It learns from the jobs you run, so the next pick gets sharper.

How to start

Type a request in the chat box. You can try this on Free, including while the pretend AIs are on.

02

Finish and MindMedia

Free

Press Finish under any result. Copy it, print it, save it as a PDF or Word file, or keep it in MindMedia, the one list of everything you make.

In this app: MindMedia.

Steps

1. Make something, such as an answer, a picture or a page.
2. Press Finish under it.
3. Pick Copy, Print, Save as PDF, Save as Word, or Save to MindMedia.
4. Open Create, then MindMedia, any time to find it again.

How to start

Press Finish under your next result. Nothing is sent or posted without your click.

03

Text size and reading

Free

Make the text bigger, turn on high contrast, or have an answer read aloud.

In this app: Reading.

Steps

1. Open Settings.
2. Find Reading.
3. Pick a text size, or turn on high contrast.
4. Use Read aloud under an answer to hear it.

How to start

Open Settings, then Reading, and pick a size. The change shows at once.

04

Missions and councils

Pro $18.99 a month Free includes 5 councils a month, and missions are part of Pro.

A council asks several AIs at once, and a mission breaks a bigger job into steps that get checked.

In this app: a council, a mission.

Steps

1. Open the chat box and type the job in plain words.
2. Pick a council when you want several AIs to answer the same question.
3. Pick a mission when the job should be split into steps that get checked.
4. Nothing starts until you click.

How to start

Open the chat box. In Expert you can pick Council or Mission before you run it. Free includes 5 councils a month.

05

Remix any app or game

Pro $18.99 a month Extreme is $29.99 a month and has no monthly cap.

Remix rebuilds an app or a game you show it from a screenshot and a game starter, with your own name and look, and you publish only when you click.

In this app: Remix, a game starter, publish.

Steps

1. Open Remix.
2. Show a screenshot of the app or game you want to rebuild.
3. Pick a game starter when you want a game.
4. Keep your own name, characters, and look.
5. Publish only when you click.

How to start

Open Remix from Help. Extreme is $29.99 a month and has no monthly cap.

06

Guided builders

Free Open the builder you see, and a full mission is part of Pro.

A guided builder walks you through a website, marketing, reels, HighLevel, accounting, booking, meeting notes, contracts, and a chat assistant when you want to make one.

In this app: a website, marketing, reels, HighLevel, accounting, booking, meeting notes, contracts, a chat assistant.

Steps

1. Open the builder for the job you want.
2. Pick a website, marketing, reels, HighLevel, accounting, booking, meeting notes, contracts, and a chat assistant.
3. Answer the short questions in plain words.
4. Read the draft and ask for changes before anything is finished.

How to start

Open the builder and choose a website, marketing, reels, HighLevel, accounting, booking, meeting notes, contracts, and a chat assistant. Opening a builder is free. A full mission is part of Pro.

07

Research and Refocus

Pro $18.99 a month Refocus is Pro, and rebuilding a finished piece is Extreme when that choice is on the page.

Research finds answers and shows its sources, and Refocus helps you finish work you already started.

In this app: Research, Refocus.

Steps

1. Turn on web search when you want sources.
2. Ask the question in plain words.
3. Open a page it lists and read it yourself.
4. Open Refocus and type the work you already started.
5. Read the list from oldest to newest, and rebuild only when you click.

How to start

Open Settings for web search, or open Refocus when you want to finish work you already started.

08

Connect your apps

Free Free includes one connected service, and Pro includes more.

You can connect Zapier and Make, MCP, and webhooks, and nothing goes out until you say so.

In this app: Zapier and Make, MCP, webhooks.

Steps

1. Open the Zapier and Make page when you want those apps.
2. Open Settings for MCP. In Simple, switch to Expert to see that panel.
3. Open Schedules for webhooks.
4. Nothing goes out until you say so.

How to start

Open Schedules and connect one service. Free includes one connected service, and Pro includes more.

09

You stay in control

Free The OK click is on every plan, and turning the phone link on is Pro at $18.99 a month.

Nothing is sent, posted, or bought until you click OK, and your phone can approve it.

In this app: Publish, Phone.

Steps

1. Read the preview before anything is sent, posted, or bought.
2. Click OK only when it is what you wanted.
3. Turn on the phone link if you want your phone to approve a waiting action.
4. Stop ends a control that is using an app.

How to start

Open Settings and find Phone and other devices. The link stays off until you turn it on.

10

Teams, People, and hosted runs

Extreme $29.99 a month Teams are part of Pro and Extreme, and hosted runs are Extreme.

Teams and People are where you share work, and Extreme can keep a run going while this PC is off.

In this app: Teams, People, hosted runs.

Steps

1. Open Teams.
2. Invite a person with a link you send yourself.
3. Share only the projects you choose.
4. Open People when you want to talk with your team.
5. On Extreme, a hosted run can keep going while this PC is off. It still waits for your OK.

How to start

Open Teams. Teams are part of Pro and Extreme.

11

What's new after an update

Free The note shows once. Take the tour any time from Help.

After each update, a short What's new note shows what changed.

In this app: What's new.

Steps

1. After an update, read the short What's new note.
2. Click Got it to close it, or Take the tour to walk through the app.
3. Open Help any time to read the note again.

How to start

Open Help and click Check for updates when you want to look. Nothing downloads until you click.
